Summary

Full Stack Developer with hands-on experience building scalable applications using Spring Boot, React, and PostgreSQL. Skilled in REST API development, backend architecture, JWT authentication, and secure application design. Strong interest in Java backend engineering and building scalable backend systems.

Education

Prof. Ram Meghe Institute of Technology and Research, Amravati *2023 – 2027*

- B.Tech in Information Technology | CGPA: 8.63 / 10

Harikisan Maloo International School, Amravati *March 2023*

- HSC – Science (MH Board) | Percentage: 73.67 / 100

Technical Skills

- **Languages:** C, C++, Java, JavaScript
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Spring Boot, Spring MVC, Spring Security, RESTful APIs
- **Databases:** PostgreSQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, IntelliJ IDEA, VS Code
- **Core Concepts:** OOP, Data Structures & Algorithms, OS, CN, DBMS

Projects

QuickPoll – Full-Stack Polling Application Github

Spring Boot, React.js, PostgreSQL, JWT, Spring Security, JPA

- Developed a full-stack polling application using Spring Boot, React, and PostgreSQL, enabling users to create polls, vote, comment, and like with JWT-based authentication.
- Built secure backend APIs using Spring Security, custom JWT filter, BCrypt hashing, and role-based access control.
- Integrated React frontend with backend services using Axios interceptors for seamless token-based authentication and efficient data flow.

Hospital Management System – Backend Github

Spring Boot, Spring Data JPA, PostgreSQL, REST APIs

- Built a RESTful backend for a Hospital Management System using Spring Boot and Spring Data JPA, covering Doctors, Patients, Appointments, and Billing modules with a clean layered architecture.
- Enforced data integrity by implementing a unique `(doctor_id, date, time)` database constraint to prevent double-booking at the schema level.
- Automated bill generation from consultation fees and exposed a schedule-by-date API, reducing manual admin effort end-to-end.

Achievements & Extracurriculars

- **1st Place, National-Level Coding Competition – PRMIT&R Techfest:** Outperformed top participants across institutions to secure 1st rank in a competitive coding contest.
- **4th Rank, Codorithm – National-Level Coding Competition, Sipna College of Engineering:** Demonstrated strong problem-solving skills in a competitive multi-institution contest.
- **160-Day Coding Streak – GeeksforGeeks:** Earned official recognition and rewards for exceptional consistency and dedication to daily competitive programming practice.
- **DSA Domain Member, Google Developer Group PRMIT&R (2025–2026):** Mentored peers in DSA and participated in technical events under GDG.
